

 PW7650 OHP
 Model with hose
 is shown.

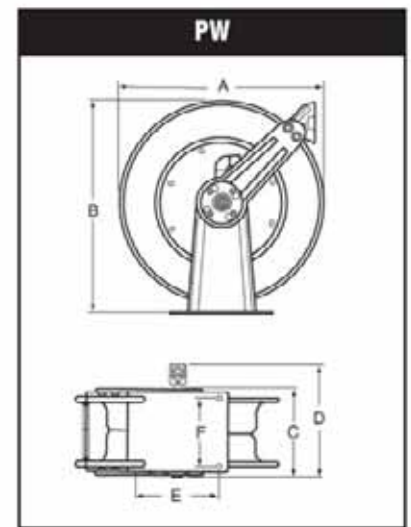

Spring Driven

Series PW - 1/4", 3/8", 1/2" I.D.

Compact design and quality steel construction are incorporated into Reelcraft's newest line of pressure wash reels rated up to 4500 PSI. The Series 30000, H18006 and PW reels are able to carry 50 to 400 feet of tangle-free hose and come complete with Super Swivel® for maximum product delivery. Super Swivel® is designed to handle a broad range of pressures, temperatures and chemicals; perfect for agricultural/marine, equipment cleaning and pressure washing applications.

APPLICATIONS

- Agricultural
- Marine
- Equipment Cleaning
- Pressure washing
