

# Hand Crank Reels

## CU Series Light Duty Hand Crank

The CU Series is designed for 6mm or 10mm internal diameter hose, for low pressure air and water applications. They are manual crank rewind reels with a pressure balanced brass swivel assembly and brass inlet. The forward thinking design makes the CU Series an economic choice for storing and retrieving hose.

- Supplied Without Hose
- Weighs Under 5Kg
- Excellent Value
- Unique Design

## H Series Versatile Hand Crank

The H Series is an economical reel designed for low and medium pressure applications that require long lengths of hose up to 3/4" (19mm) internal diameter. The H Series is suited to many applications; plant or field, lawn care, pest control, pressure cleaning and many more. The low pressure hose reels are for air or water service only. The medium pressure reels can be used for air, water or oil.
